NOUVELLE ÉDITION,

REVUE ET CORRIGÉE PAR L.-F. FAIN, PROFESSEUR DE LANGUE ANGLOISE.

TOME PREMIER.

A PARIS,

CHEZ LEFÈVRE, LIBRAIRE, RUE DE L'ÉPERON.

1817.

AVIS DU LIBRAIRE.

La paix ayant rétabli les communications entre la France et l'Angleterre, l'étude de la langue angloise est devenue presque générale en France; mais on y manquoit d'un *Dictionnaire Anglois-François* et *François-Anglois*. Les dernières éditions, publiées à Lyon en 1792, et à Rouen en 1802, étant entièrement épuisées, il ne restoit aux libraires françois que des Dictionnaires abrégés ou *Pocket*, inutiles aux écoliers qui ont déjà fait des progrès dans l'étude de l'une ou de l'autre langue. Tels sont les motifs qui nous ont engagé à entreprendre l'impression d'une nouvelle édition *in-quarto* de ce Dictionnaire.

Le débit de cet ouvrage fut, pendant la dernière guerre, beaucoup plus considérable en Angleterre qu'en France, et les libraires anglois eurent souvent besoin de le réimprimer; nous devons avouer qu'ils n'ont pas négligé de le faire perfectionner, et que leurs dernières éditions sont préférables aux éditions françoises; une entre autres, publiée à Londres, en 1805, par M. Des Carrières, contient plus de *vingt mille mots* qu'on ne trouve dans aucune des éditions imprimées en France; de plus, les définitions y sont beaucoup mieux traitées; aussi l'avons-nous adoptée pour copie de celle que nous offrons aujourd'hui au public.

« Voici en peu de mots (dit M. Des Carrières, dans l'Avertissement de son édition » de 1805,) le travail que l'on a fait pour cette nouvelle édition.

» I. On a pris la peine de collationner les deux parties de l'édition précédente l'une sur » l'autre; tâche pénible et ennuyeuse, mais nécessaire, et qui n'a peut-être pas encore eu lieu » pour aucun ouvrage de ce genre.

» II. Après la définition de chaque *mot*, on a ajouté, dans la partie angloise, ceux que » l'on peut regarder en quelque sorte comme synonymes; et, quand l'occasion s'en présente, » on en discute la synonymie, en donnant des extraits de Blair, Trusler, et MM. Piozzi. Les » renvois sont imprimés en petites capitales, et précédés du signe V.

» III. On a inséré, 1°. beaucoup de mots techniques, ou de termes de Sciences, d'Arts » et de Métiers, qui avoient été omis dans les éditions précédentes; 2°. tous les termes de » Marine, extraits des Dictionnaires de Falconer, de Lescallier et de Romme; 3°. les prin- » cipaux termes de Botanique et d'Histoire naturelle, extraits du Dictionnaire de Bomare, » et de l'Encyclopédie de Chambers; 4°. les principaux articles de Mythologie et de » Géographie : dans la partie angloise, on a marqué la latitude des villes, et leur longitude » à partir du méridien de Londres, d'après le Dictionnaire de Brookes.

» IV. Puisque, dans l'une et l'autre langue, la plupart des mots ne se prononcent pas » comme ils s'écrivent, on a cru devoir en marquer la prononciation exacte; dans la partie

» angloise, on a divisé les mots par syllabes, et on en a marqué la quantité ou l'accent » prosodique. On a suivi pour guide le Dictionnaire de M. Walker, écrivain aussi modeste » que savant, et dont l'ouvrage est rempli à propos d'observations judicieuses, marquées au » coin de la plus saine critique.

» La compilation d'un Dictionnaire est une entreprise de longue haleine, et, si l'on peut » parler ainsi, une besogne de manœuvre, qui ne rapporte ni gloire ni profit. Ce qu'il renferme » de bon, on en est redevable aux sources où l'on a puisé; les fautes,

. . . . . Quas aut incuria fudit,
Aut humana parùm cavit natura. . . . . Hor.

» (et il n'y a guère de livre où il n'y en ait, surtout un Dictionnaire), on est réduit à les » rejeter sur quelque inadvertance, ou sur la fragilité humaine, et à espérer son pardon de » l'indulgence du lecteur. Il faut donc avoir l'utilité publique bien à cœur pour en composer » un, il ne faut pas moins de courage à un libraire pour l'imprimer; car les frais dans » lesquels l'impression de ces sortes de livres entraîne sont si considérables, qu'on est obligé » d'en tirer un grand nombre d'exemplaires; ce qui rend la rentrée des fonds si lente, que » l'intérêt de l'argent absorbe le bénéfice auquel on a droit de prétendre. Quoi qu'il en soit, » les propriétaires de ce Dictionnaire *Anglois-François* et *François-Anglois* n'ont point » été rebutés par la difficulté de l'entreprise; du moins est-il constant qu'ils n'ont épargné » ni temps ni dépense, et l'Éditeur ni soin ni peine, pour tâcher de répondre à l'attente » du public, et continuer d'en mériter la bienveillance. »

A cet exposé du travail de M. Des Carrières, nous ajouterons que nous n'avons rien négligé pour obtenir que notre édition ne fût point inférieure à celle de Londres; nous croyons même qu'on reconnoîtra aisément qu'elle lui est préférable sous le rapport de la partie typographique. M. Fain, professeur de langue angloise, qui a été chargé de la correction des épreuves, a aussi revu et beaucoup amélioré la prononciation figurée de la partie angloise. Quant à la partie françoise, nous en avons supprimé la prononciation à l'usage des François, figurée d'après le système de M. Féraud; elle est inutile aux Anglois qui étudient la langue françoise, car, pour eux, c'est l'inconnu expliqué par l'inconnu. Nous y avons substitué la prononciation figurée, pour les Anglois, d'après le Dictionnaire de M. Walker, et le Vocabulaire explicatif de la prononciation de la langue françoise, par M. Tardy, imprimé à Londres en 1815; mais le système de M. Tardy a été beaucoup amélioré par M. Fain. Par l'effet de ce changement, déjà approuvé par plusieurs habiles professeurs, notre édition contient la prononciation des mots anglois figurée pour les François, et celle des mots françois figurée pour les Anglois; c'est un avantage que n'a pas l'édition de Londres.

Jusqu'à présent le *Dictionnaire Anglois-François* et *François-Anglois* a été publié, ou sous le nom de Boyer, ou sous celui de Chambaud; mais, vu les nombreuses augmentations et les changemens considérables qu'on y a faits, et qui en ont plus que doublé la grosseur, nous pensons que ce Dictionnaire ne doit plus paroître sous un seul nom; il est en outre certain que les Éditeurs du Dictionnaire de Boyer ont pris dans celui de Chambaud une

grande partie de leurs augmentations, et que les Éditeurs du Dictionnaire de Chambaud ont extrait de celui de Boyer ce qu'ils y ont trouvé à leur convenance; il en est résulté que ces deux ouvrages sont aujourd'hui tellement mêlés ensemble, que leurs auteurs mêmes auroient beaucoup de peine à y distinguer ce qui appartient à chacun d'eux : ce sont ces considérations qui nous ont déterminé à réunir les noms de Boyer et de Chambaud. MM. John Garner et Des Carrières étant les deux éditeurs qui ont le plus enrichi ce Dictionnaire, il étoit juste de ne pas les oublier dans l'indication des auteurs auxquels on en doit la rédaction : le *Dictionnaire Anglois-François* et *François-Anglois*, que nous publions, est bien en effet, ainsi que l'annonce son titre, l'ouvrage de Boyer, Chambaud, John Garner et Des Carrières.

¶ To abdicate, *abdiquer*; to renounce, *renoncer à*; to resign, *résigner* (synon.): *To abdicate*, relates more particularly to a throne; *renounce*, to matters of religion or opinion; *resign*, to employments or possessions. Thus: James the Second *abdicated* the throne of England; many have *renounced* the errors of the Romish Church; though they were obliged in consequence to *resign* their employments. A *gulf* is supposed to have many turns and windings, of which when we have once set a step in, we cannot possibly get out, but are carried on, in spite of all our endeavours to the contrary. An *abyss* is supposed to have many uncertain and obscure roads, without end, in which though we may sometimes stop, in hopes of finding a way out, yet, being deceived, we become disheartened, bewildered with doubts, and overwhelmed with despair.

A man is said to reason with the first of these qualities, to converse with the second, to conceive with the third, and to dispute or argue with the fourth. Coarse people have mean time, by the too frequent use of their favourite Aphæresis, rendered it vulgar to call any one an *acute* fellow by the way of saying he is a sharp-witted one; it having been a practice lately, among low Londoners, to say, when they like a boy, How 'cute he is! So that the word would now shock a polished circle from its grossness.

We *avoid* doing things that are disagreeable to us : We *shun* those persons whom we would not see, or by whom we would not be seen : We *fly* those who pursue us.

AVOUCH (a-vaoutche'), *s.* [proof, declaration] *Preuve*, f. *témoignage*, m. *déclaration*, f.

To AVOUCH, -ING, -ED, *v. a.* [to declare, to justify by vouchers] *Déclarer, soutenir, justifier par de bonnes preuves, mettre en évidence, affirmer, attester, garantir.*

¶ To Avouch, *avouer, justifier, prouver;* to attest, *attester;* to declare, *déclarer;* to affirm, *affirmer;* to protest, *protester;* to aver, *avérer, vérifier;* to assert, *soutenir;* to maintain, *maintenir;* to swear, *jurer;* to warrant, *garantir* (synon.) : The last is generally confined to vulgar use. *To avouch* implies an assertion in defence of another; *to attest*, a bearing witness to what another has said : *to declare* signifies to tell a thing simply, but seriously; *to affirm* is to say confidently; *to protest* implies a solemn affirmation; *to aver*, a positive declaration; *to assert*, that declaration defended; *to maintain* is to support such assertion; *to swear*, to ratify it by an oath. When we give our opinion on being seriously asked, we are said *to declare* it; when we would give that declaration more force, we *affirm* it; and to strengthen that affirmation, we *protest* it solemnly; that is, we *affirm* it by invoking the Deity. Some persons are so ready to *assert*, that let the matter be right or wrong, 'tis equally the same. When our opinions are just and well-grounded, we have an undoubted right to *maintain* them. *Swearing* was first instituted in Courts of judicature, as a conscientious testimony of truth. When the reputation of an honest man has been undeservedly hurt, 'tis the part of a friend to *avouch* his good character. Too much care to *attest* all that is advanced, renders our conversation tiresome.

¶ To Avow, *avouer;* to acknowledge, *reconnoître;* to confess, *confesser* (synon.) : Each implies the affirmation of a fact; but *to avow* supposes the person to glory in it; *to acknowledge* supposes a small degree of faultiness, which the acknowledgment compensates; *to confess* supposes a higher degree of crime : a patriot *avows* his opposition to a bad minister, and is applauded; a gentleman *acknowledges* his mistake, and is forgiven; a prisoner *confesses* his crime, and is punished.

AVOWABLE (a-vaou'-a-bl'), *adj.* [that may be avowed] *Qui peut être avoué.*

¶ Between, *entre, parmi*; betwixt, *entre* (synon.): Custom has made no other distinction than that of using the word *between* on every occasion, as being softer on the tongue; and almost banishing the use of *betwixt*, as being much harsher: *betwixt* seems however to be used with most propriety when what is in the middle is as it were embraced by the other two; *between*, when that in the middle is at some distance from the other two: thus, speaking of houses standing in a row, the house I live in stands *betwixt* two high houses: but speaking of a row of trees, we should use *between*; as, The oak I mentioned, stands *between* two elms.

¶ Cross, *fâcheux, incommode*; unlucky, *malheureux*, vexatious, *chagrinant*; perverse, *pervers*, *cruel* (synon.): Applied to accidents, these are nearly synonymous. Thus we say: it was *unlucky* I was not at home when my friend called, with whom I had serious business; things will go *cross* sometimes, but this was particularly *vexatious*, and I have seldom been more provoked than I am by this *perverse* accident. When these words are applied to persons, their meaning is more different; as, when a child is peevish, we say he is *cross*; we call ourselves *unlucky*, when we do not succeed in our schemes; *perverse* signifies obstinate or headstrong; *vexatious* is not applied to persons.

¶ To cross, *croiser*; to thwart, *traverser*; to obstruct, *obstruer, boucher, mettre obstacle*; to embarrass, *embarrasser*; to hinder, *empêcher* (synon.): To *cross* or *thwart* is, as it were, to place some obstacle in the way; to *obstruct*, is to stop or block up; to *embarrass*, is to place in such a situation, that we know not how to act; to *hinder* is to prevent. Ex. To be *embarrassed* by every trifle which *crosses* our designs, and *thwarts* our schemes, will *obstruct* our progress through life, and *hinder* our enjoyment of it. Some instructors of mankind have thought it necessary to *cross* people in their infancy, by perpetually *thwarting* their intents, *obstructing* their little projects for petty amusement, and contriving incessantly to *hinder* enjoyments, not in themselves irregular, and *embarrass* designs not evil in their own natures. Though this be esteemed, however, by some a good mode of education; reason must condemn the principle as erroneous, while humanity rejects the practice as tyrannical.
